

Automation and Security Products: HYDRAULIC ROAD BLOCKER

HYDRAULIC ROAD BLOCKER

Model :TI-QX4-RB74

SR. NO.	PRODUCT DESCRIPTION	TECHNICAL PARAMETERS
1	Mechanism/Drive Unit	Electro-Hydraulic
2	Blocking Height of Road Blockers	700 mm
3	Blocking Width of Road Blockers	4 meters (customized)
4	Raising /Lowering Speed	2 to 4 sec
5	Impact Resistance	Able to stop 6.8 ton truck coming @ speed of 60 km/h
6	In case of Power Failure	Manual pump operation in case of power failure and automatic lowering upon power failure
7	Safety	Photo Sensors for Human Safety Loop Detector for Vehicles Safety
8	Emergency Operation	Manual Operation in case of emergency
9	Accessories (optional)	1. Flashing Lights for guidance to driver 2. Push Button for Emergency operation 3. Reflective Bends 4. Traffic Lights
10	Integration	Can be integrated to ant Access Control Devises and Boom Barrier/ Bollards/ Tyre Killers
11	Protection Class	IP 67
